TECHNICAL TOPIC

Carolyn d'Almeida, a Region 9 Remedial Project Manager, highlighted the enforcement struggles and the technical challenges of moving from a pilot scale to full scale implementation of a steam enhanced removal alternative of petroleum products at Williams Air Force Base ST-12 Fuels Spill Site. The presentation included figures highlighting the progress made since implementing the full-scale remediation along with several slides on "lessons learned." A copy of the presentation has been uploaded to the EF SharePoint website

EF SHAREPOINT WEBSITE

As a reminder, the EF SharePoint website can be accessed via the following link: [HYPERLINK "https://usepa.sharepoint.com/sites/R5_Community/engineeringforum/_layouts/15/start.aspx"]. If EF members cannot access the SharePoint page, they should contact one of the EF co-chairs or Michelle Kerr (Region 5) for an invitation to join.

TSP CO-CHAIR UPDATE

The TSP co-chairs decided on their April 5 call to have TSP group picture for all three forums taken at the 2016 National Association of Remedial Project Managers (NARPM) training conference on Monday, May 2, between 5:30-5:45 pm. The picture will be used in recruitment tools for TSP.

NARPM BUSINESS MEETING

An updated agenda for the Engineering Forum's business meeting and updated Evergreen List is available on the SharePoint site. The co-chairs ask that everyone review the agenda and Evergreen List as well as the strategic plan prior to the business meeting. The business meeting will not be broadcast online through Adobe Connect this year.

EF'S NARPM DINNER

The EF will meet for dinner on Tuesday, May 3, after the business meeting.

NEXT ENGINEERING FORUM TELECONFERENCE

The May 4 EF teleconference is canceled, due to overlap with the 2016 NARPM training conference. The next call will be held Wednesday, June 1, from 12:30-2:00 pm ET. Agenda items should be sent to the co-chairs prior to the call.

OPEN MIC

A version of the Ecosystems Services paper will be available on the EF SharePoint site for review before NARPM.
